

To Whom It May Concern,

We the students of Washington High School, believe it is unfair that Senator, and former First Lady, Hilary Clinton did not receive consent from the school board to visit our school. The student population is discouraged that our own school board denied us this opportunity to be a part of political history. Now the opportunity has been passed on to another local high school. We have not been provided with an adequate reason as to why the request was denied. This is just another great opportunity lost to students who have little enough opportunity as it is.
